

Cascade Fabricated Flange Adaptors

Cascade can fabricate flange adaptors to suit most common pipe materials, to be dedicated ($\pm 3\text{mm}$) of an OD or with a tolerance dependant on application and working pressure.

These can be offered with PN16, PN25 and PN40 flanges and can be fabricated for up to 25 bar working pressure.

Specifications

- (1) Body constructed of Ductile to BS2789, Grade A20/12.
- (2) End Ring – Ductile to BS2789, Grade A20/12.
- (3) Gasket – WRAS approved EPDM to BS2494.
- (4) Hex Bolts to Grade 8.8, BS4190 coated to BS4320
- (5) Nut coated to BS4320 and Zinc plated to BS729
- (6) Fusion bonded epoxy (WRAS approved) or others on request.
